

## CONTENTS

## VOLUME 7 (1969)

Inactivation and mutation of coliphage T2 by N-methyl- and N-ethyl-N-nitrosourea by ANTHONY LOVELESS AND CHRISTINE L. HAMPTON (London, Great Britain) (Rec'd October 9th, 1968) . . . . .	1-12
Mutants with altered DNA-base composition by J. B. VAN DER PLAAT, P. APONTOWEIL AND W. BERENDS (Delft, The Netherlands) (Rec'd October 14th, 1968) . . . . .	13-18
Regulation of biosynthesis of secondary metabolites. XI. Induction of variants in <i>Streptomyces aureofaciens</i> and the specificity of mutagens by M. MRAČEK, M. BLUMAUEROVÁ, F. PALEČKOVÁ AND Z. HOŠŤÁLEK (Prague, Czechoslovakia) (Rec'd October 2nd, 1968). . . . .	19-24
Effect of the selective medium on the manifestation of mutations induced with monoalkylating agents in <i>Chlamydomonas reinhardtii</i> by R. LOPPES (Liège, Belgium) (Rec'd October 28th, 1968). . . . .	25-34
Effet génétique d'une irradiation par les rayons X de caryopses de <i>Zea mays</i> . Influence d'un traitement à haute température avant l'irradiation sur l'effet immédiat par C. VAN DE WALLE (Liège, Belgique) (Reçu le 19 novembre, 1968) . . . . .	35-42
The effect of some treatment conditions on the radiomimetic activity of 1-methyl-3-nitro-1-nitrosoguanidine in plants by B. L. KAUL (Cologne-Vogelsang, Germany) (Rec'd October 7th, 1968) . . . . .	43-49
Studies on the genetic activity of thymidine-base analogue in <i>Arabidopsis thaliana</i> by M. JACOBS (Brussels, Belgium) (Rec'd November 29th, 1968) . . . . .	51-62
Comparative effects of chemosterilants on spermatogenic stages in the house fly. I. Induction of dominant lethal mutations in mature sperm and gonial cell death by LEO E. LACHANCE, MAURICE DEGRUGILLIER AND ANN P. LEVERICH (Fargo, N. Dak.) (Rec'd October 1st, 1968) . . . . .	63-74
X-ray-induced mutations in the poeciliid fish, <i>Lebistes reticulatus</i> Peters by JOHANNES HORST SCHRÖDER (Neuherberg nr. Munich, Germany) (Rec'd September 30th, 1968) . . . . .	75-90
Sensitivity of G <sub>1</sub> phase of the mitotic cycle to chromosome aberrations induced by daunomycin by B. K. VIG, STELLA B. KONTRAS AND AUDREY M. AUBELE (Columbus, Ohio) (Rec'd October 14th, 1968). . . . .	91-97
Chromosome studies on bone marrow from Chinese hamsters treated with benzodiazepine tranquilizers and cyclophosphamide by W. SCHMID AND G. R. STAIGER (Zurich and Basle, Switzerland) (Rec'd November 26th, 1968) . . . . .	99-108
Chlordiazepoxide and diazepam: Absence of effects on the chromosomes of diploid human fibroblast cells by G. R. STAIGER (Basle, Switzerland) (Rec'd November 26th, 1968) . . . . .	109-115
The role of selection in the host-mediated assay for mutagenicity by M. G. GABRIDGE, E. J. OSWALD AND M. S. LEGATOR (Washington, D.C.) (Rec'd October 1st, 1968) . . . . .	117-119
Photoreactivation of ultraviolet light-induced pyrimidine dimers in Ginkgo cells grown <i>in vitro</i> by JAMES E. TROSKO AND VIRGINIA H. MANSOUR (East Lansing, Mich.) (Rec'd October 22nd, 1968) . . . . .	120-121

- X-Ray-induced multiple aberrations among oocytes of *Drosophila melanogaster*  
by ROBERT R. RINEHART AND F. J. RATTY (San Diego, Calif.) (Rec'd October 10th, 1968) . . . . . 122-125
- Actinomycin D: Inhibition of chromosomal repair in human lymphocytes  
by T. PREMPREE AND T. MERZ (Baltimore, Md.) (Rec'd October 14th, 1968) . . . . 126-128
- Phenotype and karyotype of a cultured Chinese hamster cell line defective for ultra-violet light resistance  
by PAUL W. TODD AND ANDREW B. HELLEWELL (University Park, Penna.) (Rec'd November 19th, 1968). . . . . 129-132
- Inactivation of transforming DNA by ultraviolet irradiation; A study with ultraviolet-sensitive mutants of *Bacillus subtilis*  
by NOBUO MUNAKATA AND YONOSUKE IKEDA (Tokyo, Japan) (Rec'd January 16th, 1969) . . . . . 133-139
- Mutagen specificity at the *ad-3A* and *inositol* loci in *Neurospora crassa*  
by M. ALLISON (Edinburgh, Great Britain) (Rec'd October 21st, 1968). . . . . 141-154
- Mitotic recombination and mutation  
by LAURA VOLTERRA AND GIORGIO MORPURGO (Rome, Italy) (Rec'd July 29th, 1968) 155-162
- Reversion of non-nitrate utilizing (*nia D*) mutants of *Aspergillus nidulans*  
by M. JENNIFER HARTLEY (Cambridge, Great Britain) (Rec'd December 20th, 1968) . 163-170
- Cytoplasmic and nuclear genetic events induced by UV light in strains of *Saccharomyces cerevisiae* with different UV sensitivities  
by E. MOUSTACCHI (Orsay, France) (Rec'd November 18th, 1968) . . . . . 171-185
- The selection of nonsense suppressors in yeast  
by DONALD C. HAWTHORNE (Seattle, Wash.) (Rec'd December 12th, 1968) . . . . 187-197
- Spontaneous chromosome aberrations in relation to seed dormancy in *Triticum durum* Desf.  
by S. AVANZI, A. M. INNOCENTI AND A. M. TAGLIASACCHI (Pisa, Italy) (Rec'd December 24th, 1968). . . . . 199-203
- Effect of temperature and barbiturates on a desynaptic mutant of ryegrass  
by B. S. AHLOOWALIA (Oak Park, Carlow, Ireland) (Rec'd December 13th, 1968). . . 205-213
- Sister chromatid exchanges in *Vicia faba*  
by C. R. GEARD AND W. J. PAECOCK (Canberra, A.C.T.) (Rec'd November 11th, 1968). 215-223
- The modification of X-ray-induced chromosome changes with anoxia in different oocyte stages of *Drosophila melanogaster*  
by BARBARA A. SEELEY AND SEYMOUR ABRAHAMSON (Madison, Wisc.) (Rec'd January 3rd, 1969) . . . . . 225-230
- Induction of mutations in *Habrobracon* sperm with mitomycin C  
by ROGER H. SMITH (Oak Ridge, Tenn.) (Rec'd December 30th, 1968). . . . . 231-234
- Studies on the induction of translocations in mouse spermatogonia  
II. Effects of fast neutron irradiation  
by A. G. SEARLE, E. P. EVANS AND B. J. WEST (Harwell, Didcot, Berks., Great Britain) (Rec'd January 14th, 1969) . . . . . 235-240
- Induction of chromosomal aberrations and mutations with isomeric forms of L-threitol-1,4-bismethanesulfonate in plant materials  
by R. MATAGNE (Liège, Belgium) (Rec'd November 27th, 1968). . . . . 241-247
- Isolation and some properties of the radiation-sensitive mutant of *S. typhimurium*  
by A. G. SKAVRONSKAYA, V. N. POKROVSKY, V. I. ZLATEV AND I. V. ANDREEVA (Moscow, U.S.S.R.) (Rec'd December 13th, 1968) . . . . . 248-251

- Phleomycin-induced mitotic inhibition and chromosomal abnormalities in cultured human leucocytes  
by NORMAN F. JACOBS, RICHARD L. NEU AND LYTT I. GARDNER (Syracuse, N.Y.)  
(Rec'd January 6th, 1969) . . . . . 251-253
- Zur Beeinflussung der Wirkung von Myleran auf menschliche Chromosomen durch L-Cystein  
von ERICH GEBHART (Erlangen-Nürnberg, Deutschland) (Eingegangen den 29. November 1968) . . . . . 254-257
- Mapping and functional analysis of  $\gamma$  and *CII* mutants  
by P. BRACHET AND R. THOMAS (Brussels, Belgium) (Rec'd December 5th, 1968). . . . . 257-260
- Analysis of photoenzymatic repair of UV lesions in DNA by single light flashes  
III. Comparison of the repair effects at various temperatures between +37° and -196°  
by HELGA HARM (Dallas, Texas) (Rec'd March 31st, 1969). . . . . 261-271
- The occurrence of suppressors in caffeine-resistant mutants from *E. coli* K12  
by ANNE-MARIE DELVAUX AND RAYMOND DEVORET (Gif-sur-Yvette, France and Rhode-Sainte-Genese, Belgium) (Rec'd March 3rd, 1969). . . . . 273-285
- Analysis of an apparent case of "gene-controlled mutational stability": The auxotrophic preemption of a specific growth requirement  
by JOHN CORRAN (Edinburgh, Great Britain) (Rec'd March 10th, 1969) . . . . . 287-295
- An effect of genetic background on dose-response curves in *Neurospora crassa*  
by M. J. ALLISON (Edinburgh, Great Britain) (Rec'd March 10th, 1969) . . . . . 297-306
- Analysis of *ad-3* mutants induced by nitrous acid in a heterokaryon of *Neurospora crassa*  
by H. E. BROCKMAN, F. J. DE SERRES AND W. E. BARNETT (Oak Ridge, Tenn.) (Rec'd March 10th, 1969) . . . . . 307-314
- Induction of mutations in *Saccharomyces cerevisiae* by ultraviolet light  
by MICHAEL A. RESNICK (Berkeley, Calif.) (Rec'd February 27th, 1969) . . . . . 315-332
- Production of respiration-deficient mutants in yeast by a carcinogen, 4-nitroquinoline 1-oxide  
by SUSUMU NAGAI (Nara, Japan) (Rec'd December 24th, 1968) . . . . . 333-337
- The production of chromosomal aberrations by propanesultone in *Vicia faba*  
by B. L. KAUL (Köln-Vogelsang, Germany) (Rec'd March 11th, 1969) . . . . . 339-347
- Embryo and endosperm response to ageing in *Triticum durum* seeds as revealed by chromosomal damage in the root meristem  
by GABRIELLA CORSI AND SILVANA AVANZI (Pisa, Italy) (Rec'd February 6th, 1969). . . . . 349-355
- The effects of oxygen and nitrogen post-treatments on the mortality of *Drosophila* eggs irradiated as stage-7 oocytes  
by K. SANKARANARYANAN (Leiden, The Netherlands) (Rec'd December 20th, 1968). . . . . 357-368
- The effects of oxygen and nitrogen post-treatments on the survival of irradiated stage-14 oocytes and a possible basis for sensitivity differences between stage-7 and stage-14 oocytes of *Drosophila melanogaster*  
by K. SANKARANARAYANAN (Leiden, The Netherlands) (Rec'd February 10th, 1969). . . . . 369-383
- X-ray-induced recessive lethals in newly inseminated eggs of *Drosophila melanogaster*  
by U. GRAF, BARBARA PIĄTKOWSKA AND F. E. WÜGLER (Zürich, Switzerland) (Rec'd March 18th, 1969) . . . . . 385-392
- Heterologous interchange at meiosis in *Drosophila* II. Some disjunctional consequences of interchange  
by D. R. PARKER (Riverside, Calif.) (Rec'd February 13th, 1969). . . . . 393-407
- Parameters of spontaneous and X-ray-induced reversion of the *white-ivory* mutant of *Drosophila*  
by J. T. BOWMAN (Logan, Utah) (Rec'd March 11th, 1969). . . . . 409-415

Spontaneous sex-linked recessive lethal frequencies from aged and non-aged spermatozoa of <i>Drosophila melanogaster</i> by ROBERT R. RINEHART (San Diego, Calif.) (Rec'd February 17th, 1969) . . . . .	417-423
Changes in the mutational response of silkworm spermatozoa exposed to mono- and polyfunctional alkylating agents following storage by EIICHI INAGAKI AND IRWIN I. OSTER (Bowling Green, Ohio) (Rec'd April 3rd, 1969) . . . . .	425-432
The effect of tritiated thymidine on sister-chromatid exchange in a ring chromosome by J. G. BREWEN AND W. J. PEACOCK (Oak Ridge, Tenn., U.S.A. and Canberra, Australia) (Rec'd December 11th, 1968) . . . . .	433-440
Radiosensitivity and repair time: the repair time of chromosome breaks produced during the different stages of the cell cycle by THONGBLIEW PREMPREE AND TIMOTHY MERZ (Baltimore, Md.) (Rec'd April 2nd, 1969) . . . . .	441-451
Chromosome aberrations induced in human lymphocytes by X-irradiation <i>in vitro</i> : the effect of culture techniques and blood donors on aberration yield by HEATHER B. A. SHARPE, D. SCOTT AND G. W. DOLPHIN (Didcot, Berks., Great Britain) (Rec'd April 21st, 1969) . . . . .	453-461
On the identity of two bacterial mutator genes: effects of antimutagens by PATRICE J. ZAMENHOF (Los Angeles, Calif.) (Rec'd February 17th, 1969) . . . . .	463-465
Suspected mutant of <i>Agrobacterium tumefaciens</i> with an altered DNA by J. B. VAN DER PLAAT, L. N. VERNIE AND J. DE LEY (Delft, The Netherlands and Ghent, Belgium) (Rec'd February 17th, 1969) . . . . .	466-468
Seed-coat color changes induced by ethyl methanesulfonate in the common bean ( <i>Phaseolus vulgaris</i> L.) by C. C. MOH (Turrialba, Costa Rica) (Rec'd March 25th, 1969) . . . . .	469-471
The dose-dependence of X-chromosome loss induced by X-rays in mature oocytes of <i>Drosophila melanogaster</i> by H. TRAUT AND W. SCHEID (Münster, Germany) (Rec'd January 23rd, 1969) . . . . .	471-474
A storm in a coffee cup by A. J. BATEMAN (Manchester, Great Britain) (Rec'd March 3rd, 1969) . . . . .	475-478
Co-mutagenesis: An interpretation of the effect of post-irradiation treatment with base analogues in the silkworm by AKIO MURAKAMI AND TAKASHI ITO (Bowling Green, Ohio) (Rec'd March 28th, 1969) . . . . .	479-481
Sex proportion in swine after paternal X-irradiation by P. D. MULLANEY AND D. F. COX (Ames, Iowa) (Rec'd March 24th, 1969) . . . . .	482-484
UV-sensitive mutants increasing mitotic crossing-over in <i>Aspergillus nidulans</i> by BERNICE SHANFIELD AND ETTA KÄFER (Montreal, Quebec, Canada) (Rec'd April 28th, 1969) . . . . .	485-487
The possible origin of EMS-induced complete <i>dumpy</i> mutants in <i>Drosophila</i> by JOHN B. JENKINS (Swarthmore, Penna.) (Rec'd March 29th, 1969) . . . . .	487-489
International Genetics Federation . . . . .	490
Environmental Mutagen Society . . . . .	490
Author Index, Vol. 7 (1969) . . . . .	491
Subject Index, Vol. 7 (1969) . . . . .	492-495
Errata. . . . .	496
Contents, Vol. 7 (1969) . . . . .	497-500
